### SKILLS

#### Languages

Python, JavaScript, C++, C#  
HTML/CSS

#### Frameworks

Node.js, Express, AngularJS, React  
(learning), Tailwind CSS (learning)

#### Databases

MongoDB, Firebase

#### Tools

Figma, Git & GitHub, Talend

#### Practices

Full Stack Dev (MERN), REST APIs,  
Agile/Scrum, UI/UX Design,  
Software Debugging

#### Soft Skills

Communication, Problem Solving,  
Adaptability, Team Collaboration

### LANGUAGES

English

### PROFILE

Computer Science senior with strong digital development experience and a growing passion for physical systems and hardware integration. Led digital projects involving UI/UX and AI tooling, and now eager to apply my skills toward embedded systems, prototyping, and real-world tech. Hands-on field experience troubleshooting smart devices and networking hardware. Highly motivated to learn and build at the intersection of software and the physical world.

### EMPLOYMENT HISTORY

#### Premier America Credit Union

##### Digital Engineering Intern

05/2025 – 08/2025 | Chatsworth, CA

- Redesigned Digital Account Opening (DAO) with mobile-first UI and progress tracking.
- Presented to senior leadership; secured support for new digital initiatives.
- Led intern AI project (chatbot + cognitive search) and documented workflows.

#### Sleep Number

##### IT Field Service Technician

01/2024 – 12/2024 | Los Angeles, CA

- Delivered, installed, and configured smart beds, sensors, and controllers in homes and retail settings.
- Diagnosed hardware and network issues involving Wi-Fi, embedded firmware, and sensor calibration.
- Provided technical support and customer education in field environments with minimal oversight.

### EDUCATION

#### Bachelor of Science in Computer Science

##### California State University Northridge

08/2024 – Present | Northridge, CA

Expected Graduation: December 2026

#### Associate of Science in Computer Programming

##### Los Angeles Mission College

08/2022 – 07/2024 | Sylmar, CA

### CERTIFICATES

#### Certificate of Achievement in Full Stack Web Development

Los Angeles Mission College 2024

### PROJECTS

#### SyncCast – MERN Stack

Built backend API and Leaflet map integration. Led team coordination and deployed working demo.

#### BudgetNest – AngularJS

Solo budgeting app mimicking Robinhood UI. Built in AngularJS with clean UX and functional budget calculators.
